

SuperCleaner 600

Concentrated Concrete Cleaner

Product Description

SuperCleaner 600 is a cleansing product that dissolves dense sediment layers, concrete and cement residues on the surface to which it is applied and dissolves rust without damaging the surface.

Areas of Application

It is used for cleaning the surfaces contaminated with mortar, concrete residues, cement based construction wastes.

Advantages

- Ready to use, easy to apply.
- Immediately cleans contaminated surfaces.

Method of use

The product should be sprayed or applied to the surface by brush, after for about 15 – 20 minutes, then the surface should be cleaned with a cleaning brush, spatula or sponge. Clean the surface by washing with plenty of water. Repeat for difficult and thick residues.

Preparation

The product is ready to use.

Point to Pay Attention

Gloves must be worn and eye and skin contact should be avoided. The surface should not be too moist during application.

Disposal

Empty packages can be thrown to the collection bins according to regional-local regulations or recycling rules. After drying up and hardening the used waste material, throw it away as construction waste material. It is dangerous to dispose of product wastes by burning them.

Points to Take into Consideration

Keep the products in places out of reach of children. Always keep the cover of the products closed. It is recommended to wear gloves and goggles during operation. In case of contact of skin with the material, it should be washed with soap and water immediately. In case of contact with the eye, see your doctor immediately.

General Considerations
